SKILLS

C/C++

AI

DevOps (Ansible, AWS)

Javascript / TypeScript

Python

Docker

Git

Web (React, Node.js, Supabase)

MongoDB / SQL

Nexts.js / Nuxts.js

Teamwork

Adaptability

Team cohesion

COMMITMENT

- Epitech ambassador since 2026
- Secretary of the Epitech student union since 2025

LANGUAGES

English / C1 level
(Cambridge certification)

FRENCH / NATIVE LANGUAGE

PROFESSIONAL EXPERIENCE

Full-stack intern Preskater · since 2026

- Product design and development, from front-end to back-end
- Supporting the team on its ongoing projects

Full-stack intern Kalisio · 08/2025 – 12/2025 · remote

- Tool collecting GitLab issues from several projects (REST API, MongoDB, Node.js)
- Streamlit dashboard: processing times and project anomaly tracking
- Kano mapping platform: Docker environments, JavaScript features, testing

Freelance developer since 2026

- Ara Équestre: bilingual e-commerce website in production, with catalog, customer accounts and back office (Next.js, PostgreSQL)
- Project handled from A to Z: requirements, quotation, development, launch

Projects

• CartePro (team of 3): employee benefits card with QR code payment. I developed the partner area: dashboard and secure payment processing (React, TypeScript, Supabase)

• Cvrie (team of 3): medical AI that detects pneumonia in X-rays and groups ~1,000 patient testimonials (Python, scikit-learn)

• Zappy (team of 7): multi-agent network simulation, server in C, 3D visualization in C++, AI in Python

• Octopus (pair project): automated deployment of a voting application across 5 servers (Ansible, PostgreSQL, Redis)

EDUCATION

Expert degree in software engineering- Epitech La Réunion - Saint-André — In progress

AWS certifications- AWS Academy — Completed

LANGUAGE TRAINING- 7speaking — Completed
